Art Unit: 3744

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Nose. Nose discloses a solenoid 115-117 for coupling the common valve element 112 and the driving member 101 together when the solenoid is energized. Also, when the solenoid is not energized, the common valve element 112 and the driving member 101 are inherently not electromagnetically coupled.

3. Claims 2 and 3 are allowed.

4. Claims 4-7 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 16, 2005.

5. Applicant's arguments filed June 30, 2005 have been fully considered but they are not persuasive. The common valve element and driving member of Nose are clearly not electromagnetically coupled when the solenoid is not energized. This is because when the solenoid is not energized, there is no electromagnetic force transmitted to the driving member.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3744

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
